

'hearing voices'

27/5/2028

I won't spend too much effort on this one – 'hearing voices' is just **uncontrolled ClairAudience**. With time the person suffering 'Mental Health Problems' will accommodate the increased energy and return to the stable state they were in before and they learn how to be intentionally ClairAudient, if they are willing to be trained, or they may spend time training themselves! I was to mentally pressured to be trained, I was offered to attend a "circle" after I was Initiated a Shaman (3rd Initiate), and I get along just fine now by myself just doing my Dreams.

I'm amazed that the "mainstream Psychiatrists" were able to get away with this diversion from what is actually happening to their client(s). I have hardly ever experienced what most Psychiatrists term as 'hearing voices' - I just straight way developed ClairVoyance. 'Hearing voices'/ClairAudience is associated with enlivening the Throat Chakra – see following.

The one notable exception for me was about 10 years after I was Initiated a Shaman/3rd Initiate [*I fully enlivened the Brow (Major) Chakra/3rd Eye*] and these words kept repeating in my mind. I went for a psychic reading from the Reverend of a Spiritualist Church and she gave me the/a meaning of these words!
